

**As of now, you can book your camp site through our shop.**

### **Important information**

- Camping is subject to the official veterinary requirements of the Veterinary Office Nürnberg regarding the accommodation and care of the dogs in cars/trailers (**please strictly follow: [amtstierärztliche Auflagen](#)**). According to the requirements of the Veterinary Office camping is allowed **as of Thursday**, the area can't be accessed before. Please consider when planning. **All dogs** brought along **must either be registered for the event** or through the portal for **visitor dogs** ([here](#)). In this connection, we would like to point out the following rule again: depending from the weather conditions and the place the dogs may be placed **in the dog crate/trailer/car at most two hours without break, after this** the dog has to be left **at least 30 minutes out of** the dog crate/trailer/car (free movement/a walk). This **rule is valid** for the complete time **daily** from **6:00 o'clock until 0:00 o'clock**. Only at night between **0:00 o'clock and 6:00 o'clock** the dog may stay in the **dog crate/trailer/car** without break. The only exception is the time directly after a exam/show. At this time the dogs are allowed to stay in the crate, trailer or car for a maximum of 3 hours. This must be traceable documented.
- The sanitary facilities on the Zeppelinfeld (caretaker's building) will be available again in the usual way this year.
