SV-App

Since this spring, the Verein für Deutsche Schäferhunde (SV) e.V. has had its own app available in the Google and Apple app stores. Our app provides interested users with up-to-date insights into the association and gives members access to their digital membership card, the digital SV-Zeitung, the latest news, the event calendar, and many other useful features.

Discover the wide range of possibilities offered by the SV app and access the association's digital services anytime, anywhere.

[> You can find more information about our app here <](#)

Access to the app

Previously, access to the app was reserved exclusively for SV members. From now on, SV-DOxS users can also access our app and its features. No separate registration is required: Simply log in using your existing SV-DOxS credentials and discover the wide range of possibilities our app has to offer.

Guest access

Discover our Event Tools even without an SV membership or SV-DOxS account. Simply register as a guest in our app and use the general features that require a user account.

- **Always stay up to date:** Join the relevant event groups and receive push notifications about the latest developments and important information directly on your smartphone.
- **Share your best moments:** Upload your photos directly to the media gallery of the respective event. With a little luck, you may soon see your photo featured on our website and/or in our magazine.

Please note: By uploading images to our gallery, you grant the association the right to store, publish and use the uploaded images for association-related purposes, free of charge and without any limitation in time or territory. The author's moral rights remain unaffected.

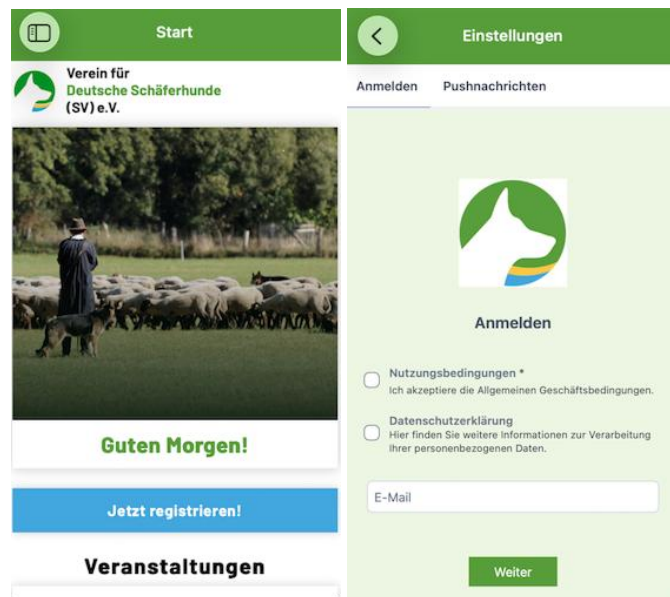

Login and registration

To log in or register, click the corresponding button on the app's home screen. You will then be redirected automatically to the login page.

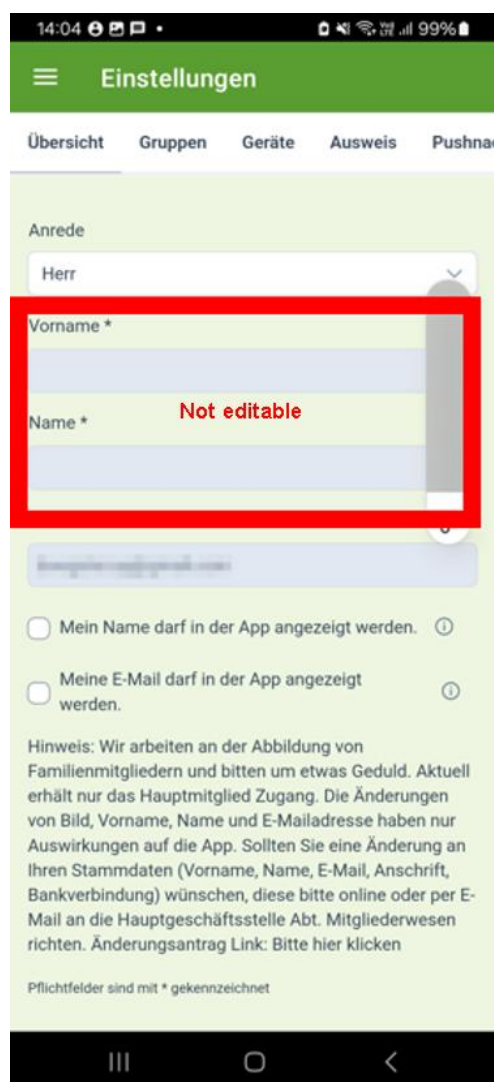

- **As a member or SV-DOxS user:** Enter the email address associated with your membership account or SV-DOxS account.
- **As a guest:** Enter the email address you would like to use for registration.

You will then receive a confirmation email. Follow the link provided in the email to complete your registration and access the features of our app and the Event Tools.

Please note: As a guest, you cannot add a name to your profile. The corresponding fields are locked in the guest profile and cannot be edited.

Once your registration has been successfully confirmed, you will be prompted to restart the app. After restarting, you will automatically be logged in with your member or guest profile and can access the available features.

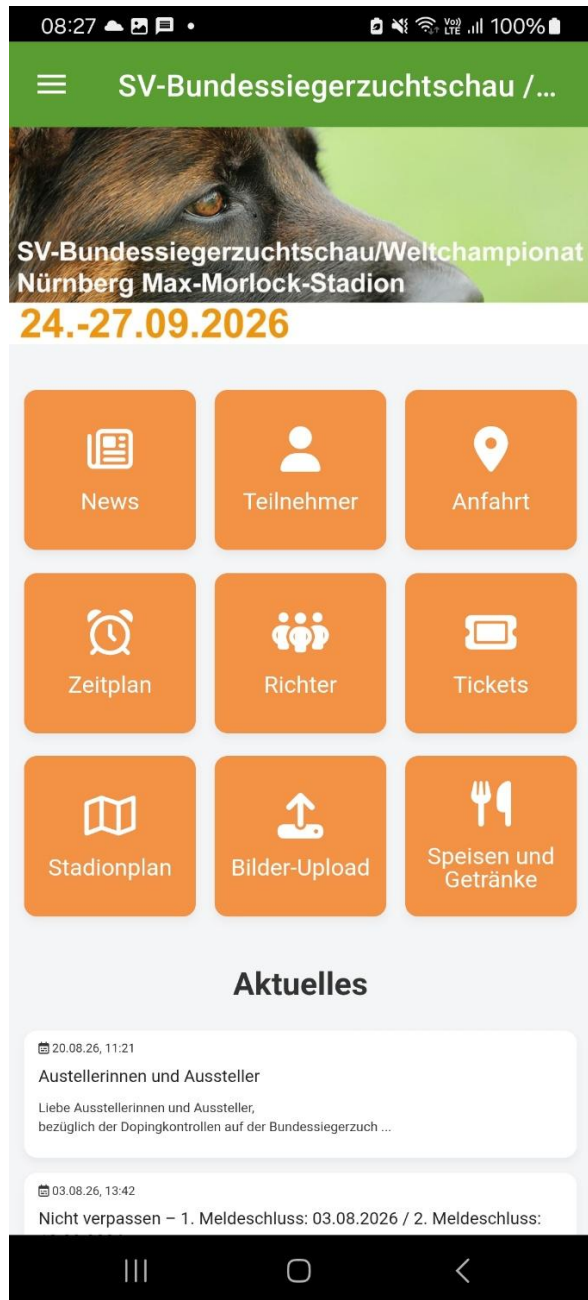

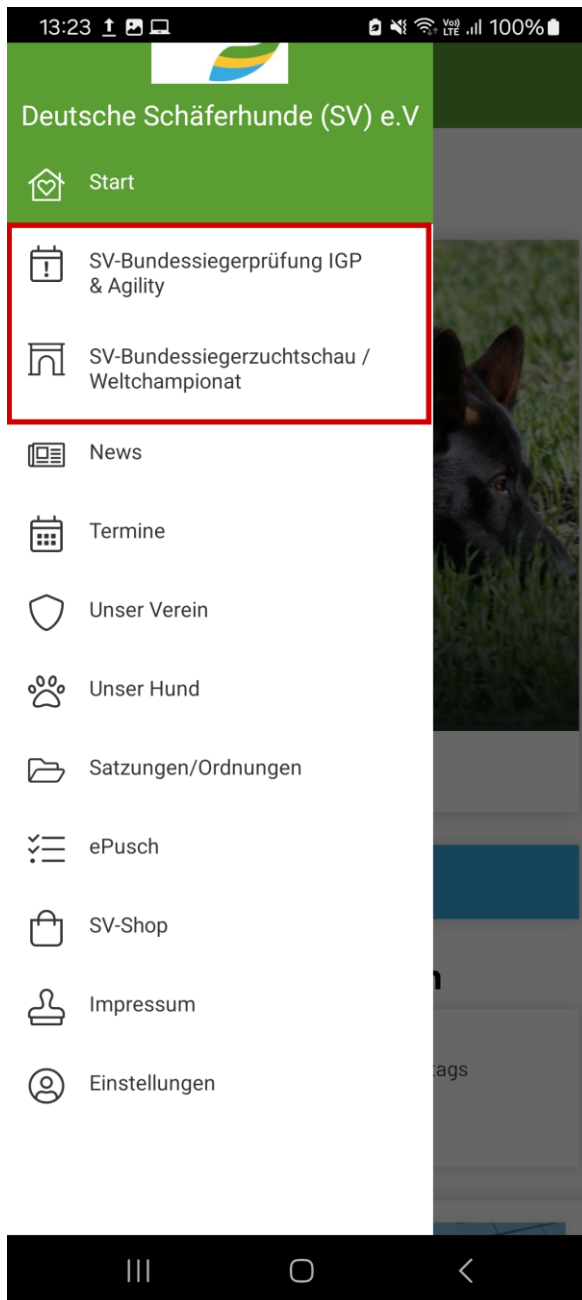

Additional information

Are you an SV member but are listed as a guest in the app? Please contact edv-support@schaeferhunde.de and provide your **email address and membership number**. Your membership account will then be updated as soon as possible, allowing access to your regular member profile to be set up using the email address provided.

Event-Tools

Just in time for the upcoming main association events, BSZ and BSP, we are pleased to introduce the new features of the SV app. You can find the Event Tools in the app's menu bar. There, you will find a quick overview of the key programme items, the latest updates and relevant information for both events.

Use the Event Tools to stay well informed at all times and enhance your event experience digitally.

BSP 2026 / BSZ 2026

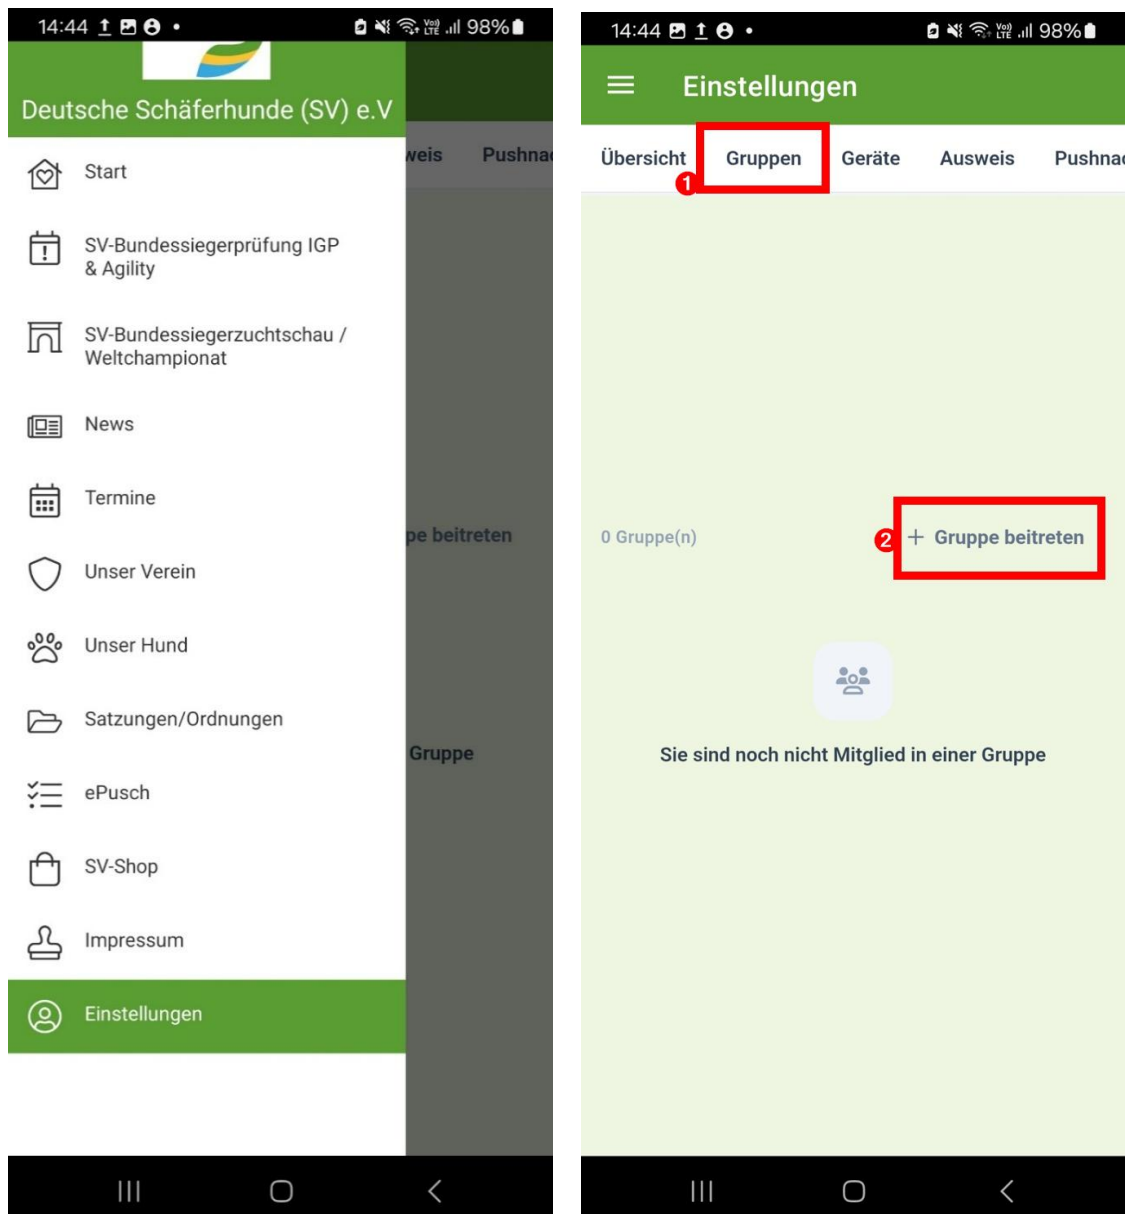

Both main association events are featured in dedicated sections of our app. Each section follows the same structure: A central panel provides quick and easy access to all important information and features for the respective event.

A user account in the app is required to upload photos and join our push notification groups.

Members can log in using the email address registered with the SV. The same applies to SV-DOxS users. If no email address has yet been registered with the SV, you can create a guest account via the registration option on the home screen.

BSP 2026 / BSZ 2026 Push Notification Group

Join the relevant push notification group and never miss any news during the event. Look forward to a concise warm-up message every morning featuring the current day's programme, useful information and important updates for the day ahead.

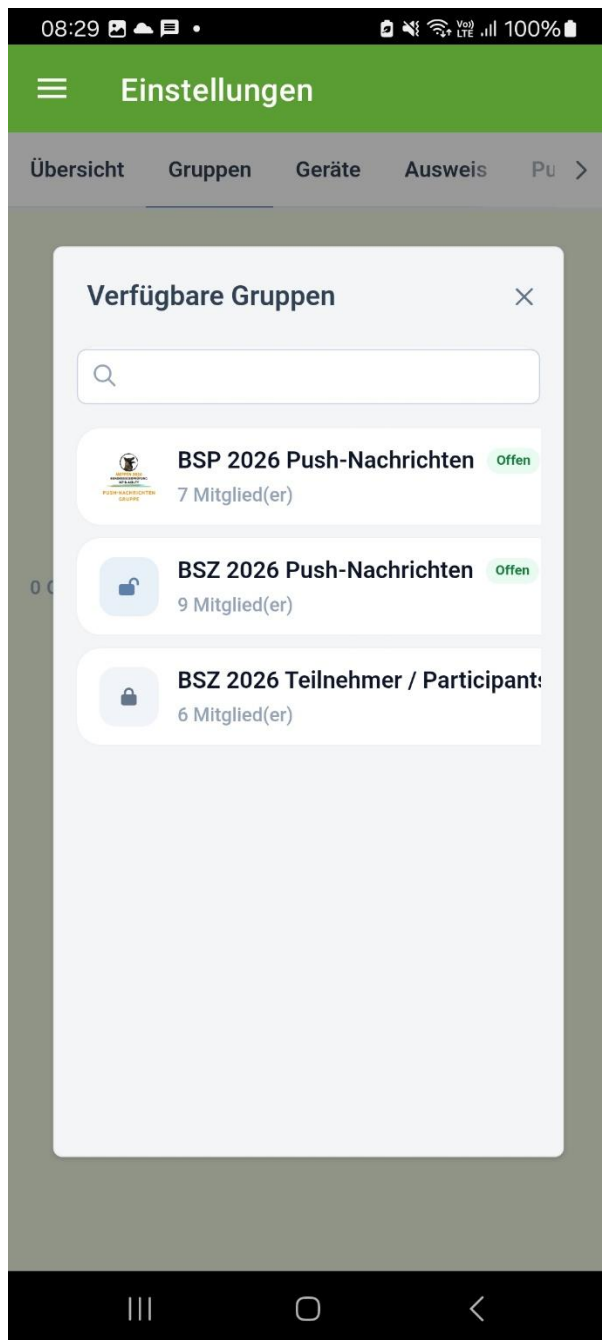

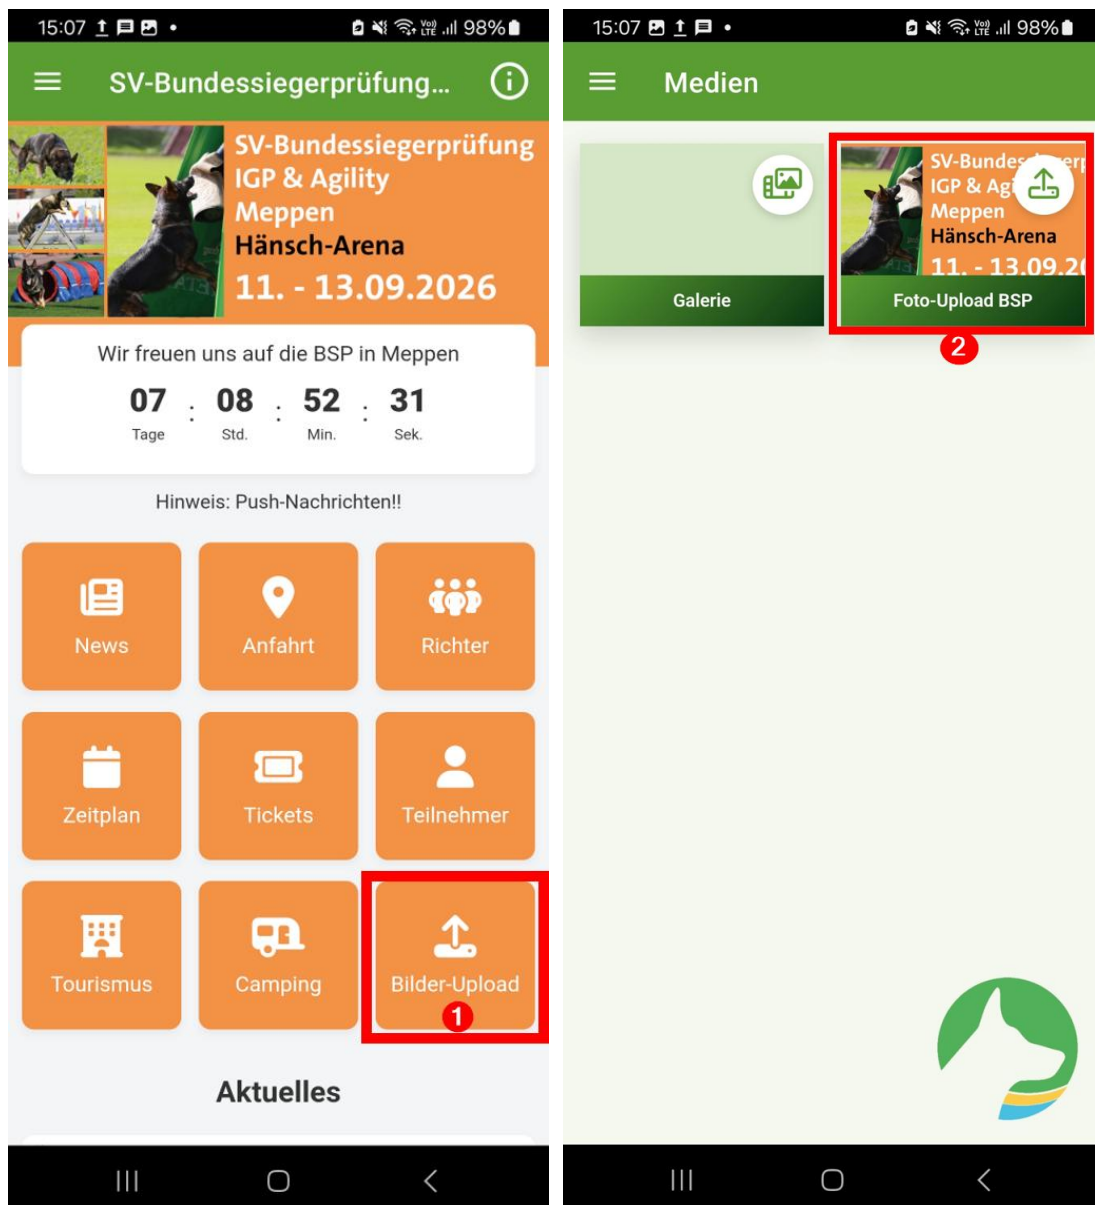

Photo-Upload

Share your best moments: Capture special moments and unforgettable impressions from the event and upload your photos directly to the dedicated media gallery. This allows you to share your personal experiences and showcase the event from your own perspective. With a little luck, your photo may soon be featured on our website and/or in our magazine.

(Please note: By uploading images to our gallery, you grant the association the right to store, publish and use the uploaded images for association-related purposes, free of charge and without any limitation in time or territory. The author's moral rights remain unaffected.)

1. Take a photo OR
2. Select an image from your device
3. Enter a title (required field)
4. Enter your email address or name (required field)
5. Would you like to tell us anything else about your photo?

(Please ensure that the app has the necessary permissions to access your camera and device storage.)

BSZ 2026: Special feature for participants

A dedicated group is available to BSZ 2026 participants in the SV app. Due to the large number of participants, important information, current schedules and organisational updates can be communicated quickly and directly through this group.

Join the participant group to stay up to date throughout the event and ensure that you do not miss any important announcements.

BSZ 2026 Participant Group

We recommend that all BSZ 2026 participants register for the participant group in the SV app. Through this group, you will receive all important information regarding line-up times, meeting points and organisational procedures in good time. This will help ensure that the event runs smoothly.

When registering for the participant group, please make sure to provide the following information:

- **Your membership number**
- **Your catalogue number(s)**

This information is required to verify your participation and approve your access to the participant group.
